

Enhance your summer

at the Computational Chemistry and Materials Science (CCMS) Summer Institute at Lawrence Livermore National Laboratory

The CCMS Summer Institute is a unique opportunity for students to work directly with leading LLNL researchers on the development and application of cutting-edge methods in computational chemistry, materials science, and related areas.

Work with a mentor on a real project that directly impacts LLNL's national security mission.

Tour LLNL facilities and laboratories.

Network with other students and researchers across LLNL.

Attend weekly lectures by leading experts from universities, national laboratories, and industry.

Present your findings at the Student Poster Symposium.

DATES
**JUNE 7 TO
AUGUST 6, 2021**
